

**A new car is good.
With a CME auto loan,
it's great.**

Good is finding a car the whole family will be comfortable in.

Good is talking the price down to below where the manager said it could go. Good is driving off the lot with that new-car smell all around you.

Great is being as happy about the loan you got as the car price you negotiated.

Great is not having to leave the lot to get this great rate. Great is taking your BIG summer vacation to Disney World instead of camping at the lake since you can now afford it.

At CME, we have the tools to make your life great. Like auto and vehicle loans that will help you get away together, smiling.
